Section 1: Introduction

About the Community Assessment Survey for Older Adults™

The Community Assessment Survey for Older Adults (CASOA)™ provides a statistically valid survey of the strengths and needs of older adults as reported by older adults themselves. This report is intended to enable local governments, community-based organizations, the private sector and other community members to understand more thoroughly and predict more accurately the services and resources required to serve an aging population. With this data, community stakeholders can shape public policy, educate the public and assist communities and organizations in their efforts to sustain a high quality of life for older adults.

The results of this exploration will provide useful information for planning and resource development as well as strengths advocacy efforts and stakeholder engagement. The ultimate goal of the assessment is to create empowered communities that support vibrant older adult populations.

This report summarizes how older residents view their community and its success in creating a thriving environment for older adults. Aspects of livability are explored within six community dimensions: Community Design, Employment and Finances, Equity and Inclusivity, Health and Wellness, Information and Assistance, and Productive Activities. Overall community quality also is assessed.

Domain of Community Livability	Description	Community Livability Topics
 <p>Overall Community Quality</p>	<p>Measuring community livability starts with assessing the quality of life of those who live there, and ensuring that the community is attractive, accessible, and welcoming to residents of all ages.</p>	<ul style="list-style-type: none"> • Place to Live and Retire • Recommend and Remain in Community
 <p>Community Design</p>	<p>A well-designed community enhances the quality of life for its residents by encouraging smart land use and zoning, ensuring that affordable housing is accessible to all, and providing mobility options to support residents aging in place.</p>	<ul style="list-style-type: none"> • Housing • Mobility • Land Use
 <p>Employment and Finances</p>	<p>Communities that work to foster sustainable growth, create jobs and workforce training for persons of all ages, and promote equitable economies ensure older adults are able to sustain their financial well-being through retirement and not outlive their life investments.</p>	<ul style="list-style-type: none"> • Employment • Finances
 <p>Equity and Inclusivity</p>	<p>A community is often greater than the sum of its parts. Having a sense of community entails not only a sense of membership and belonging, but also feelings of safety and trust in the other members of the community.</p>	<ul style="list-style-type: none"> • Equity • Community Inclusivity
 <p>Health and Wellness</p>	<p>The amenities available in the communities have a direct impact on the health and wellness of residents, and thus, on their quality of life overall.</p>	<ul style="list-style-type: none"> • Safety • Physical Health • Mental Health • Health Care • Independent Living
 <p>Information and Assistance</p>	<p>Government programs, policies and information assistance can support successful aging initiatives allowing older residents to remain independent contributors to community quality.</p>	<ul style="list-style-type: none"> • Quality of Older Adult Services • Information on Available Older Adult Services
 <p>Productive Activities</p>	<p>Productivity is the touchstone of a thriving old age. Older adults' engagement and contribution to the community can be determined by their time spent in civic meetings and social activities or providing help to others.</p>	<ul style="list-style-type: none"> • Civic Engagement • Social Engagement • Caregiving

Survey Methods

The CASOA survey instrument and its administration are standardized to assure high-quality survey methods and comparable results across communities. Households with an adult member 60 years or older were selected at random. Multiple mailed contacts gave each household more than one prompt to participate. A total of 3350 older adult households were randomly selected to receive the survey. These households first received a half-page postcard inviting them to complete the survey online, followed by a mailed hard copy survey packet which included a cover letter, a copy of the questionnaire and a postage-paid return envelope. A total of 337 completed surveys was obtained, providing an overall response rate of 10.39% and a margin of error plus or minus 5.34% around any given percent and one point around any given average rating for the entire sample (e.g., average number of caregiving hours).

In addition to the random sample "probability" survey, an open participation survey was conducted, in which all older adults 60 years or older were invited to participate. The open participation survey instrument was identical to the probability sample survey. This survey was conducted entirely online. A total of 8 surveys were completed by open participation survey respondents. The open participation survey results were combined with responses from the probability sample survey, for a total of 345 completed surveys. With the inclusion of the open participation survey participants, it is likely that the precision of the responses would be even greater (and thus the margin of error smaller).

Results were statistically weighted to reflect the proper demographic composition of older adults in the entire community.

Since this was the 3rd implementation of CASOA in Area Five Agency on Aging and Community Services, the current results are presented along with the prior results when available. Differences in responses between the survey administrations were tested for statistical significance, and statistically significant differences are noted in the charts. Trend data represent important comparisons and should be examined for improvements or declines.

For additional details on the survey methodology, see the Methods section.

How the Results Are Reported

Don't Know Responses and Rounding

On many of the questions in the survey, respondents could provide an answer of don't know. The proportion of residents giving this reply can be seen in Responses.

However, these responses have been removed from the analyses presented in the body of the report, unless otherwise indicated. In other words, the majority of the tables and graphs in the body of the report display the responses from respondents who had an opinion about a specific item.

For some questions, respondents were permitted to select multiple responses. When the total exceeds 100% in a table for a multiple response question, it is because some respondents are counted in multiple categories. When a table for a question that only permitted a single response does not total to exactly 100%, it is due to the customary practice of rounding percentages to the nearest whole number.

Benchmark Comparison Data

National Research Center at Polco has developed a database that collates responses to CASOA and related surveys administered in other communities, which allows the results from Area Five Agency on Aging and Community Services to be compared against a set of national benchmarks. This benchmarking database includes responses from more than 35,000 older adults (age 55 and over) in over 322 communities across the nation.

Ratings are compared when similar questions are included in Polco's database and when there are at least five other communities in which the question was asked.

Where comparisons for ratings are available, Area Five Agency on Aging and Community Services's results are shown as more favorable than the benchmark, less favorable than the benchmark or similar to the benchmark. In instances where ratings are considerably more or less favorable than the benchmark, these ratings have been further demarcated by the attribute of "much" (for example, much more favorable or much less favorable).

Section 2: Key Findings

Background

Most older adults desire to age in place. Communities that assist older adults in remaining or becoming active community participants must provide the requisite opportunities for recreation, transportation, culture, education, communication, social connection, spiritual enrichment and health care.

To better understand the strengths and challenges of Indiana communities aging in place, the Indiana Association of Area Agencies on Aging, Inc. (IAAAA) partnered with Polco to administer its third iteration of The Community Assessment Survey for Older Adults (CASOA™) across all Areas Agencies on Aging across the state. The survey was conducted previously in 2013 (baseline) and 2017. Data in this report focus specifically on older residents in the Area Five Agency on Aging and Community Services region.

Survey participants rated the overall quality of life in their community. They also evaluated their communities as livable communities for older adults within six domains:

- Community Design
- Employment and Finances
- Equity and Inclusivity
- Health and Wellness
- Information and Assistance
- Productive Activities.

The extent to which older adults experience challenges within these domains is also described.

Overall Community Quality

Measuring community livability for older adults starts with assessing the quality of life of those who live there, and ensuring that the community is attractive, accessible, and welcoming to all. Exploring how older residents view their community overall and how likely they are to recommend and remain in their communities can provide a high-level overview of the quality and livability of the community.

- About 8 in 10 of older residents living in the Area Five Agency on Aging and Community Services rated their overall quality of life as *excellent* or *good*. Most of the older respondents scored their communities positively as a place to live

and would recommend their communities to others. About 8 in 10 residents also planned to stay in their community throughout their retirement.

- Older residents gave lower scores to their communities as places to retire than they did the overall quality of life in their community. About two-thirds of respondents provided assessments of *excellent* or *good* to the community as a place to retire.

Overall Scores of Community Livability

The Community Assessment Survey of Older Adults (CASOA) is designed to examine the status of older adults and the community around many (17) aspects of livability within six domains: Community Design, Employment and Finances, Equity and Inclusivity, Health and Wellness, Information and Assistance, and Productive Activities. Summary scores of community livability were created through the aggregation of a series of resident ratings within each of these different livability domains. The livability areas found to be strongest in the region related to areas of Recommend and Remain in Community (average positive score of 74), Place to Live and Retire (72), and safety (70). The areas showing the greatest need for improvement related to employment (positive score of 28), Information on Available Older Adult Services (31) and mental health (39). More detailed information about each livability domain follows.

Community Design

Livable communities (which include those with mixed-use neighborhoods, higher-density development, increased connections, shared community spaces and more human-scale design) will become a necessity for communities to age successfully. Communities that have planned and been designed for older adults tend to emphasize access, helping to facilitate movement and participation.

- About 5 in 10 respondents rated the overall quality of the transportation system (auto, bicycle, foot, bus) in their community as *excellent* or *good*. Ease of travel by car was considered excellent or good by 90% of respondents, while ease of travel by walking was considered excellent or good by only 65% of respondents.
- When considering aspects of housing (affordability and variety) and community features of new urbanism (where people can live close to places where they can eat, shop, work, and receive services), relatively lower scores were given by older adults compared to many other items on the survey. Only 40% of respondents gave a positive score to the availability of affordable quality housing in their communities, and only about 3 in 10 older adults gave *excellent* or *good* ratings to the availability of mixed-use neighborhoods.
- About 42% of older residents in the region reported experiencing housing needs and 25% reported mobility needs.

Employment and Finances

The life expectancy for those born between 1940 and 1960 has increased dramatically due to advances in health care and lifestyle changes. While this is a very positive trend overall, it also highlights both the importance of communities providing employment opportunities for older adults and the need for older adults to plan well for their retirement years.

- About 44% of older residents rated the overall economic health of their communities positively, and the cost of living was rated as *excellent* or *good* by only 4 in 10.
- Employment opportunities for older adults (quality and variety) received low ratings (below 22% positive), and the opportunity to build work skills also was found to be lacking (39% excellent or good).
- About 3 in 10 older adults reported financial challenges and 2 in 10 employment needs.

Equity and Inclusion

A community is often greater than the sum of its parts. Having a sense of community entails not only a sense of membership and belonging, but also feelings of equity and trust in the other members of the community.

- About 61% of older residents rated the sense of community in their towns as *excellent* or *good*, and ratings of neighborliness a little lower (50%).
- About half of the respondents positively rated their community's openness and acceptance toward older residents of diverse backgrounds, and 41% indicated that their community valued older residents.
- Inclusion challenges were reported by about 16% of older residents and equity challenges by 8%.

Health and Wellness

Of all the attributes of aging, health poses the greatest risk and the biggest opportunity for communities to ensure the independence and contributions of their aging populations. Health and wellness, for the purposes of this study, included not only physical and mental health, but issues of safety, independent living and health care.

- About 7 in 10 older residents in the region rated their overall physical health as *excellent* or *good* and a somewhat higher proportion (9 in 10) rated their mental health as *excellent* or *good*.

- Community opportunities for health and wellness were scored positively by 6 in 10 residents, while the availability of physical health care, mental health care and long term care options received lower ratings (48% or fewer gave positive ratings).
- Health-related problems were some of the most common challenges listed by older adults in the survey, with 36% reporting physical health challenges and 23% reporting mental health challenges. Health care was also a challenge for about 38% of older residents.

Information and Assistance

The older adult service network, while strong, is under-resourced and unable to single-handedly meet the needs of the continuously growing population of older adults. Providing useful and well-designed programs, as well as informing residents about other assistance resources, is an important way that government agencies can help residents age in place.

- The overall services provided to older adults in the region were rated as *excellent* or *good* by only 50% of survey respondents.
- About 6 in 10 survey respondents reported being *somewhat informed* or *very informed* about services and activities available to older adults. The availability of information about resources for older adults and financial or legal planning services was rated positively by fewer than 26% of older residents.
- About 4 in 10 of older adults were found to have information access challenges in the region.

Productive Activities

Productive activities outside of work (such as volunteerism and social activity) promote quality of life and contribute to active aging. This domain examines the extent of older adults' participation in social and leisure programs and their time spent attending or viewing civic meetings, volunteering or providing help to others.

- About 55% of older adults surveyed felt they had *excellent* or *good* opportunities to volunteer, and 5 in 10 participated in some kind of volunteer work.
- The caregiving contribution of older adults was substantial in the region. About 46% of older residents reported providing care to individuals 55 and older, 18% to individuals 18-54 and 21% to individuals under 18.
- Older adults in the region reported challenges with being civically engaged (17%), being socially engaged (13%) and caregiving (11%).

The Economic Contribution of Older Adults in the Region

The contribution older adults make through employment, volunteerism and caregiving was calculated for all older adults living in Area Five Agency on Aging and Community Services region. It is estimated that older residents contribute \$750 million annually to their community through paid and unpaid work.

Older Resident Needs

Through the survey, more than 40 challenges commonly facing older adults were assessed by respondents. These challenges are grouped into 15 larger categories of needs. In the region, the largest challenges were in the areas of housing, information and physical health. At least 42% of older residents reported at least one item in these categories was a problem in the 12 months prior to taking the survey.

Comparison to National Benchmarks

To better provide context to the survey data, resident responses for the region were compared to Polco's national benchmark database or older adult opinion. Of the 51 assessments of community livability compared to the benchmark database, the region scored on par for 38 items. One item (ease of travel by car in your community) scored above the benchmark comparisons and there were below the benchmark comparisons for 12 items.

The areas in which the region ratings were lower than benchmark comparisons are shown below:

- Overall economic health of your community,
- Overall health and wellness opportunities in your community,
- Overall opportunities for education, culture, and the arts,
- Quality of employment opportunities for older adults,
- Availability of affordable quality food,
- Public places where people want to spend time,
- Availability of affordable quality physical health care,
- Recreation opportunities (including games, arts, library services, etc.),
- Fitness opportunities (including exercise classes and paths or trails, etc.),
- Opportunities participate in community matters,
- Opportunities to enroll in skill-building or personal enrichment classes,
- Opportunities to attend social events or activities

In terms of older resident challenges, the region scored similar to benchmark averages for 36 items and below for one area (being a victim of fraud or a scam).

Comparison of Ratings Over Time

The COVID-19 pandemic was disruptive to many areas of community livability and resulted in profound impacts on many older adults lives around the world, nation and in communities throughout Indiana. It is important to keep these disruptions in mind while comparing trends from 2017 with present.

Of the 33 assessments of community livability that could be compared over time (questions that were asked on both the 2017 and current survey instruments), the ratings were similar for 16 items. Areas where ratings improved since 2017 included:

- Sense of community in your community,
- Your overall physical health,
- Your overall mental health/emotional wellbeing,
- Ease of travel by car in your community,
- Availability of affordable quality physical health care,
- Availability of affordable quality mental health care,
- Availability of preventive health services (e.g., health screenings, flu shots, educational workshops)

There were 10 areas of community livability showing a decline in quality ratings from 2017, most relating to activities and opportunities that were impacted by the pandemic:

- Cost of living in your community,
- Availability of information about resources for older adults,
- Recreation opportunities (including games, arts, library services, etc.),
- Fitness opportunities (including exercise classes and paths or trails, etc.),
- Opportunities participate in community matters,
- Opportunities to volunteer,
- Opportunities to enroll in skill-building or personal enrichment classes,
- Opportunities to attend social events or activities,
- Opportunities to attend religious or spiritual activities,
- Valuing older residents in your community

When comparing resident self-reported challenges, of the 35 items to compare, 24 were similar in magnitude to 2017. Fewer challenges were reported for 2 items (staying physically fit and feeling like your voice is heard in the community) when compared to the past survey results. There were 9 areas where older residents in the region reported greater challenges since 2017:

- Having housing to suit your needs
- Maintaining your home
- Having safe and affordable transportation available

- Building skills for paid or unpaid work
- Having adequate information or dealing with public programs such as Social Security, Medicare, and Medicaid
- Not knowing what services are available to older adults in your community
- Having enough food to eat
- Feeling bored
- Dealing with the loss of a close family member or friend

Section 3: Understanding the Report

Throughout this report, iconography is used to denote trends and benchmarks. While some pages will show the legend, others won't for the sake of space. Keep this page handy for reference

Trends

**More favorable**

At least 7 percentage points more favorable than last measure

**Similar**

No statistically significant difference

**Less favorable**

At least 7 percentage points less favorable than last measure

Benchmarks

**Much more favorable**

At least 20 points more favorable than benchmark

**More favorable**

10-20 points more favorable than benchmark

**Similar**

No statistically significant difference

**Less favorable**

10-20 points less favorable than benchmark

**Much less favorable**

At least 20 points less favorable than benchmark

Section 4: Community Readiness

Communities that assist older adults to remain or become active community participants must provide the requisite opportunities for recreation, transportation, culture, education, communication, social connection, spiritual enrichment and health care. Because every community is different, each must identify what its older adults value most and what the community offers its older residents. The judgments of these residents provide the elements used to calculate the overall community quality in Area Five Agency on Aging and Community Services.

Survey respondents were asked to rate a number of aspects of the community. These ratings were converted to an average scale of 0 (the lowest rating, such as poor) to 100 (the highest rating, such as excellent) and then combined to provide one overall rating (index¹) for each of the six dimensions of Community Readiness, as well as an overall rating of the Quality of the Community.

Community Readiness Chart

Dimension	Community Livability Topics	Score (out of 100)
Overall Community Quality	<ul style="list-style-type: none"> Place to Live and Retire Recommend and Remain in Community 	64
Community Design	<ul style="list-style-type: none"> Housing Mobility Land Use 	44
Employment and Finances	<ul style="list-style-type: none"> Employment Finances 	30
Equity and Inclusivity	<ul style="list-style-type: none"> Equity Community Inclusivity 	43

Dimension	Community Livability Topics	Score (out of 100)
Health and Wellness	<ul style="list-style-type: none"> • Safety • Physical Health • Mental Health • Health Care • Independent Living 	42
Information and Assistance	<ul style="list-style-type: none"> • Quality of Older Adult Services • Information on Available Older Adult Services 	34
Productive Activities	<ul style="list-style-type: none"> • Civic Engagement • Social Engagement • Caregiving 	43

Community Readiness over Time

2021 2017 2013

These ratings are not to be understood like ratings from school tests, because they are summaries of several questions that range from 0 as poor, 33 as fair, 66 as good and 100 as excellent. For example, a score of 58 should be interpreted as closer to good than to fair (with the midpoint of the scale, 50, representing equidistance between good and fair).

Section 5: Community Livability Topics

The Community Assessment Survey of Older Adults (CASOA)[™] is designed to examine the status of older adults and the community around many (17) aspects of livability within six domains: Community Design, Employment and Finances, Equity and Inclusivity, Health and Wellness, Information and Assistance, and Productive Activities. Overall community quality also is assessed with two topics. (See Introduction section About the Community Assessment Survey for Older Adults for an overview of all the community livability topics within these domains.) For each of these 19 community livability topic areas, survey questions evaluated the community's ability to accommodate the needs of older residents, as well as the actual experiences and challenges of older adults.

To summarize the data, an index score was calculated for each aspect of livability by averaging the ratings given to the questions related to the specific community livability topic. (This index includes only the ratings of community amenities, not those items related to the respondents' own status or the challenges faced by the respondent.)

Section 6A: Place to Live and Retire

Successful aging communities are attractive and welcoming to older adults and provide the support necessary for residents to age in place.

Livability score

Average of community quality items

i Livability score trend unavailable.

Because Area Five Agency on Aging and Community Services doesn't have a prior livability score, trends for livability aren't available. Trends will be available after this survey has been conducted a second time.

Related Survey Results

Items on the survey related to this topic are shown below. These tables display the ratings given by respondents, as well as a comparison to the national benchmark (average ratings from communities across the nation) and, if available, comparisons to ratings from the most recently implemented CASOA.

i Certain trends unavailable
 Because Area Five Agency on Aging and Community Services doesn't have any prior measurements for certain characteristics, those characteristics don't have trend values. All characteristics will have trends after this survey has been conducted a second time.

Quality of Community

Percent reporting *excellent* or *good*.

Characteristic	% positive 	Trend 	National Benchmark 
Your neighborhood as a place to live	80%	N/A	
Your community as a place to live	72%		
The overall quality of life in your community	70%	N/A	
Your community as a place to retire	63%		

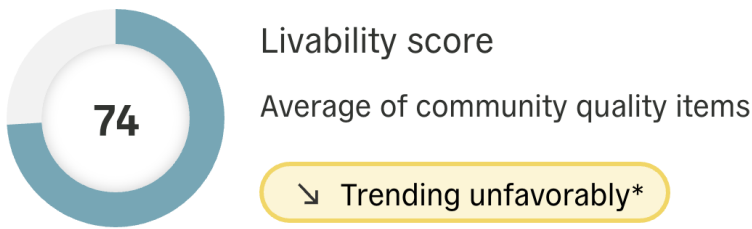

Status Indicators - Personal Quality of Life

Percent reporting *excellent* or *good*.

Characteristic	% positive 	Trend 	National Benchmark 
Your overall quality of life	80%		

Section 6B: Recommend and Remain in Community

A strong testament to the quality of a community is the likelihood of residents recommending and remaining in the community. Generally, residents will not recommend a community to friends unless they believe that community is offering the right amenities and services. Furthermore, communities that do a good job supporting seniors allow their residents to remain throughout their retirement years.

* Only applies to last two measurements

Livability score over time

Related Survey Results

Items on the survey related to this topic are shown below. These tables display the ratings given by respondents, as well as a comparison to the national benchmark (average ratings from communities across the nation) and, if available, comparisons to ratings from the most recently implemented CASOA.

Quality of Community

Percent reporting *very likely* or *somewhat likely*.

Characteristic	% likely 	Trend 	National Benchmark 
Remain in your community throughout your retirement	78%		
Recommend living in your community to older adults	70%		

Section 7A: Housing

Most older adults want to age in place; however, many do not have homes that feature universal design allowing access for walkers and wheelchairs and providing safety for those who are frail or experiencing mobility impairments. Ensuring the availability of housing stock that is both affordable and suitable for seniors is necessary as a community's population ages.

Livability score

Average of community quality items

i Livability score trend unavailable.

Because Area Five Agency on Aging and Community Services doesn't have a prior livability score, trends for livability aren't available. Trends will be available after this survey has been conducted a second time.

Related Survey Results

Items on the survey related to this topic are shown below. These tables display the ratings given by respondents, as well as a comparison to the national benchmark (average ratings from communities across the nation) and, if available, comparisons to ratings from the most recently implemented CASOA.

i Certain trends unavailable
 Because Area Five Agency on Aging and Community Services doesn't have any prior measurements for certain characteristics, those characteristics don't have trend values. All characteristics will have trends after this survey has been conducted a second time.

Potential Problems

Percent reporting *minor problem, moderate problem or major problem*.

Characteristic	% problematic	Trend	National Benchmark
Doing heavy or intense housework	64%	→	—
Maintaining your home	53%	↘	—
Maintaining your yard	42%	→	—
Having housing to suit your needs	28%	↘	—

Quality of Community

Percent reporting *excellent or good*.

Characteristic	% positive	Trend	National Benchmark
Availability of affordable quality housing	40%	→	—
Variety of housing options	35%	→	—
Availability of accessible housing (e.g., homes with a no step entry, single-floor living, wide hallways and doorways)	26%	N/A	—

Section 7B: Land Use

The movement in America towards designing more livable communities (which include mixed-use neighborhoods, higher-density development, increased connections, shared community spaces and more human-scale design) will become a necessity for communities to age successfully. Communities that have planned and been designed for older adults tend to emphasize access, helping to facilitate movement and participation.

Livability score

Average of community quality items

i Livability score trend unavailable.

Because Area Five Agency on Aging and Community Services doesn't have a prior livability score, trends for livability aren't available. Trends will be available after this survey has been conducted a second time.

Related Survey Results

Items on the survey related to this topic are shown below. These tables display the ratings given by respondents, as well as a comparison to the national benchmark (average ratings from communities across the nation) and, if available, comparisons to ratings from the most recently implemented CASOA.

i Certain trends unavailable
 Because Area Five Agency on Aging and Community Services doesn't have any prior measurements for certain characteristics, those characteristics don't have trend values. All characteristics will have trends after this survey has been conducted a second time.

Quality of Community

Percent reporting *excellent* or *good*.

Characteristic	% positive 	National Benchmark 
Overall quality of the utility infrastructure in your community (water, sewer, storm water, electric, gas)	70%	
Overall design or layout of your community's residential and commercial areas (e.g., homes, buildings, streets, parks, etc.)	59%	
Availability of mixed-use neighborhoods where people live close to places where they can eat, shop, work, and receive services	30%	
Public places where people want to spend time	26%	

Section 7C: Mobility

The ease with which older residents can move about their communities, whether for commuting, leisure, or recreation, plays a major role in the quality of life for all who live, work, and play in the community. Those who reside in livable communities where they can reach their destinations easily and comfortably by auto, on foot or in public transportation are more likely to remain engaged in their communities and to demonstrate signs of successful aging. Residents that must give up driving are more likely to be able to age in place if other modes of transportation are easily accessed in their neighborhood and community.

Livability score

Average of community quality items

i Livability score trend unavailable.

Because Area Five Agency on Aging and Community Services doesn't have a prior livability score, trends for livability aren't available. Trends will be available after this survey has been conducted a second time.

Characteristic	% positive 	Trend 	National Benchmark 
Ease of travel by car in your community	90%		
Ease of getting to the places you usually have to visit	78%	N/A	
Ease of walking in your community	65%		
Overall quality of the transportation system (auto, bicycle, foot, bus) in your community	54%	N/A	
Ease of travel by public transportation in your community	38%		

Section 8A: Employment

People in the U.S. are working longer and retiring at an older age than they have in the past. Older adults are postponing retirement for a variety of reasons: improved health, the desire to accumulate additional wealth and/or benefit from delayed pension plans, and because the information age-based economy is less physically demanding than jobs from the industrial age. Older workers are an untapped resource for many communities seeking economic stability and growth.

Livability score

Average of community quality items

i Livability score trend unavailable.

Because Area Five Agency on Aging and Community Services doesn't have a prior livability score, trends for livability aren't available. Trends will be available after this survey has been conducted a second time.

Related Survey Results

Items on the survey related to this topic are shown below. These tables display the ratings given by respondents, as well as a comparison to the national benchmark (average ratings from communities across the nation) and, if available, comparisons to ratings from the most recently implemented CASOA.

i Certain trends unavailable
 Because Area Five Agency on Aging and Community Services doesn't have any prior measurements for certain characteristics, those characteristics don't have trend values. All characteristics will have trends after this survey has been conducted a second time.

i Certain benchmarks unavailable
 Because this survey includes new characteristics, we can't determine your benchmark performance on the new characteristics until a sufficient number of communities have completed surveying. We'll email you when we've determined more of your benchmark performances.

Potential Problems

Percent reporting *minor problem, moderate problem* or *major problem*.

Characteristic	% problematic	Trend	National Benchmark
Building skills for paid or unpaid work	42%	↓	–
Finding work in retirement	29%	→	–

Quality of Community

Percent reporting *excellent* or *good*.

Characteristic	% positive	Trend	National Benchmark
Opportunities to build work skills	39%	N/A	–
Quality of employment opportunities for older adults	22%	→	↓
Variety of employment opportunities for older adults	22%	N/A	–

Section 8B: Finances

With longer life spans, the importance of financial well-being in old age has increased dramatically. Financial independence and the ability to economically contribute to a community have become critical factors in enhancing the quality of life of older adults.

Section 11A: Information on Available Older Adult Services

Sometimes residents of any age fail to take advantage of services offered by a community solely because they are not aware of the opportunities that exist. Educating a large community of older adults is not simple, but raising awareness about attractive, useful and well-designed programs will lead more residents to benefit from becoming participants.

Section 11B: Quality of Older Adult Services

Strong local governments play a major role in producing communities that meet the needs of older residents while making the best use of available resources. Providing services that are responsive to the present and future needs of the older community is an important responsibility and a vital component of livable communities.

* Only applies to last two measurements

Section 12A: Caregiving

According to the Centers for Disease Control, about 2 in 5 adults 65 years and older have a disabling condition that affects their ability to live independently¹. Those who provide care to a loved one or friend with such a condition often feel a sense of contribution and personal worth despite the physical, emotional and financial burden such care can produce. While such caregiving is most often provided by family members and is unpaid, AARP researchers estimate the value of the care as \$470 billion annually. A caregiving crunch is predicted in the future, where the average American will spend more years caring for their parents than for their own children².

¹Prevalence of Disabilities and Health Care Access by Disability Status and Type Among Adults — United States, 2016

Providing care to someone age 18 to 54	18%		

Section 12B: Civic Engagement

In communities where residents care about local politics and social conditions, where they feel engaged and effective, there tends to be greater social, economic and cultural prosperity. Civic activity of any kind, such as volunteering, participating in political groups or being active in community decision-making, benefits both communities and seniors themselves.

Used a recreation center in your community	20%		

Section 13: Economic Contribution

Productive behavior is “any activity, paid or unpaid, that generates goods or services of economic value.”¹ Productive activities include many types of paid and unpaid work, as well as services provided to friends, family or neighbors. Older adults make significant contributions (paid and unpaid) to the communities in which they live. In addition to their paid work, older adults contribute to the economy through volunteering, providing informal help to family and friends, and caregiving.

Economic Contribution of Older Adults in Area Five Agency on Aging and Community Services

The calculations of the economic contributions of older adults in Area Five Agency on Aging and Community Services were rough estimates using data from the U.S. Department of Labor Bureau of Labor Statistics (Metropolitan and Nonmetropolitan Area Occupational Employment and Wage Estimates).

Economic Contribution of Older Adults

	% of older adults	# of older adults*	Average # of hours**	Average hourly rate***	Annual total
Providing care to older adult(s)	48%	27,232	3.98	\$11.50	\$64,764,198
Providing care to adult(s)	19%	10,804	1.79	\$11.50	\$11,560,565
Providing care to child(ren)	23%	13,177	1.31	\$10.94	\$9,818,820
Providing help to family and friends	85%	47,888	4.98	\$13.81	\$171,285,242
Volunteering	54%	30,394	2.26	\$15.74	\$56,301,714
Subtotal unpaid					\$313,730,538
Working part time	11%	6,269	15.00	\$23.00	\$112,465,860
Working full time	15%	8,403	32.00	\$23.00	\$321,599,616
Subtotal paid					\$434,065,476
Total contribution					\$747,796,014

¹Rowe JW, Kahn RL. Successful Aging. New York: Pantheon Books; 1998.

* Based on U.S. Census Bureau - 2019 American Community Survey; about 56,459 adults age 60 and over in the state.

** Respondents were asked to select a range of hours. The average number of hours was calculated from the mid-point of the response scale. For example, a response of 1 to 3 hours equated to 2 hours and a response of never was assumed to be zero hours. In cases where the respondent chose a response that indicated 11 or more hours or 20 or more hours, the number of hours was calculated as 125% of 11 and 125% of 20 (i.e.,

13.75 and 25 respectively). Working full time was assumed to be 32 hours per week and working part time was assumed to be 15 hours per week.

*** The economic value of an hour worked was assumed to be the same as the average hourly wage as calculated by the Bureau of Labor statistics for similar types of work in State of Indiana. Providing care for older adults and adults was assumed to be the equivalent of "Personal and Home Care Aides." Providing care for children was assumed to be the equivalent of "Child Care Workers." Providing help to family and friends was assumed to be the equivalent of "Personal Care and Service Occupations." Volunteering was assumed to be the equivalent of "Office Clerks, General." Working full time and part time was assumed to be the equivalent of "All Occupations."

Section 14: Community Needs

The individual survey questions about specific problems faced by older community members were summarized into the 17 larger categories to provide a broad picture of older resident needs in Area Five Agency on Aging and Community Services. The figure below shows the percent of respondents who reported that one or more items within each of these 17 areas was a major or moderate problem. (See Methods for more information on the items included in each area.)

Typically, it is understood that the self-reported needs of older adults represent a minimum level, a conservative estimate attenuated by respondents' strong desire to feel and appear self-reliant and further reduced by the silent voice of some older adults who, no matter how sensitive the attempt, are too frail to participate in any survey enterprise.

Percent and Estimated Number of Older Adults With a Need

	Percent with need	Number affected in 2021 (N=56,459)
Housing	42%	23,488
Mobility	25%	13,992

Social Engagement	13%	7,449
Caregiving	11%	6,067

Populations at Higher Risk

As people age, many learn to take better care of themselves, to plan for retirement and, generally, to move more deliberately. Aging builds wisdom but can sap resources — physical, emotional and financial. Even those blessed by good luck or prescient enough to plan comprehensively for the best future may find themselves with unanticipated needs or with physical, emotional or financial strengths that could endure only with help. Some people age better than others, and aging well requires certain strengths that are inherent and others that can be supported by assistance from the private sector and government.

The tables below show the reported needs within each category of livability of Area Five Agency on Aging and Community Services's older adult population, by demographic subgroup. This information can help identify which groups are at higher risk in the community and account for sociodemographic disparities when addressing these needs.

Needs of Older Population by Sociodemographic Characteristics, Percent in 2021 (56,459)

	Housing	Mobility	Employment	Finances	Equity

Section 15: Full Responses to Survey Questions (Including No Opinion)

These results include all questions. The results include the percentage that responded for each answer choice and the number of responses. If the choices included a choice with no opinion (like don't know or not applicable), they will be shown in this section. The following section shows the results with no opinion choices.

1. Please rate each of the following aspects of quality of life in Indiana.

Characteristic	Excellent	Good	Fair	Poor	Don't Know
Your community as a place to live	24% (72)	49% (146)	25% (75)	3% (9)	0% (0)
Your neighborhood as a place to live	33% (98)	47% (141)	14% (40)	6% (19)	0% (0)
Your community as a place to retire	24% (72)	39% (116)	30% (89)	7% (21)	0% (1)
Sense of community in your community	22% (66)	36% (107)	28% (82)	10% (29)	4% (13)
The overall quality of life in your community	19% (56)	50% (150)	24% (73)	5% (14)	2% (7)

2. Please rate each of the following characteristics as they relate to your community as a whole.

Characteristic	Excellent	Good	Fair	Poor	Don't Know
Overall economic health of your community	6% (17)	35% (106)	43% (128)	9% (27)	7% (21)
Overall quality of the transportation system (auto, bicycle, foot, bus) in your community	7% (20)	45% (135)	33% (99)	11% (33)	4% (12)
Overall design or layout of your community's residential and commercial areas (e.g., homes, buildings, streets, parks, etc.)	5% (16)	52% (155)	32% (95)	8% (25)	2% (7)
Overall quality of the utility infrastructure in your community (water, sewer, storm water, electric, gas)	9% (28)	58% (170)	19% (56)	9% (27)	5% (15)
Overall feeling of safety in your community	17% (50)	52% (155)	26% (78)	3% (10)	2% (7)
Overall quality of natural environment in your community	12% (36)	50% (150)	30% (90)	3% (9)	4% (13)
Overall quality of parks and recreation opportunities	16% (47)	49% (148)	21% (61)	7% (20)	8% (23)
Overall health and wellness opportunities in your community	7% (20)	52% (153)	23% (68)	12% (35)	7% (20)
Overall opportunities for education, culture, and the arts	9% (27)	37% (111)	31% (92)	13% (38)	10% (31)

3. How would you rate the overall services provided to older adults in your community?

Answer Choice	Percent
Excellent	3% (10)
Good	39% (114)
Fair	32% (94)
Poor	11% (31)
Don't know	16% (46)

4. Please indicate how likely or unlikely you are to do each of the following.

Characteristic	Very Likely	Somewhat Likely	Somewhat Unlikely	Very Unlikely	Don't Know
Recommend living in your community to older adults	26% (77)	41% (121)	15% (44)	14% (41)	3% (10)
Remain in your community throughout your retirement	48% (143)	29% (85)	16% (47)	6% (18)	1% (2)

5. In general, how informed or uninformed do you feel about services and activities available to older adults in your community?

Answer Choice	Percent
Very informed	14% (41)
Somewhat informed	49% (148)
Somewhat uninformed	24% (72)
Very uninformed	13% (40)

6. Please rate the quality of each of the following.

Characteristic	Excellent	Good	Fair	Poor	Don't Know
Your overall physical health	13% (39)	60% (181)	22% (65)	5% (15)	0% (1)
Your overall mental health/emotional wellbeing	22% (65)	66% (199)	11% (32)	1% (4)	0% (0)
Your overall quality of life	13% (39)	67% (197)	17% (51)	3% (9)	0% (0)

7. What impact, if any, do you think the economy will have on your family income in the next 6 months? Do you think the impact will be:

Answer Choice	Percent
Very positive	3% (8)
Somewhat positive	13% (40)
Neutral	39% (119)
Somewhat negative	34% (102)
Very negative	11% (32)

8. Please rate each of the following characteristics as they relate to older adults in your community.

Characteristic	Excellent	Good	Fair	Poor	Don't Know
Ease of travel by public transportation in your community	5% (15)	28% (82)	24% (69)	30% (86)	13% (39)
Ease of travel by car in your community	31% (90)	58% (169)	8% (22)	2% (5)	1% (3)
Ease of walking in your community	17% (48)	47% (134)	24% (70)	10% (28)	3% (9)

Characteristic	Excellent	Good	Fair	Poor	Don't Know
Ease of getting to the places you usually have to visit	23% (66)	52% (147)	18% (50)	4% (11)	3% (8)
Opportunities to build work skills	4% (11)	24% (68)	26% (74)	17% (49)	28% (80)
Quality of employment opportunities for older adults	3% (9)	11% (31)	27% (74)	25% (70)	34% (95)
Variety of employment opportunities for older adults	2% (7)	13% (36)	25% (72)	27% (78)	32% (92)
Cost of living in your community	4% (10)	33% (94)	42% (122)	14% (41)	7% (20)
Availability of affordable quality food	6% (18)	43% (123)	31% (89)	16% (46)	4% (12)
Availability of affordable quality housing	3% (8)	32% (90)	34% (96)	19% (53)	13% (38)
Variety of housing options	1% (3)	28% (79)	29% (83)	25% (71)	18% (51)
Availability of accessible housing (e.g., homes with a no step entry, single-floor living, wide hallways and doorways)	1% (2)	17% (51)	30% (85)	23% (65)	30% (86)
Availability of mixed-use neighborhoods where people live close to places where they can eat, shop, work, and receive services	3% (10)	24% (70)	39% (111)	26% (75)	8% (22)
Public places where people want to spend time	4% (11)	21% (60)	47% (136)	21% (60)	7% (21)
Availability of information about resources for older adults	3% (8)	20% (58)	37% (106)	27% (78)	14% (39)

Characteristic	Excellent	Good	Fair	Poor	Don't Know
Availability of financial or legal planning services	4% (11)	25% (71)	38% (107)	12% (36)	21% (60)
Availability of long-term care options	6% (16)	31% (90)	28% (81)	15% (43)	21% (62)
Availability of daytime care options for older adults	2% (6)	16% (46)	23% (67)	19% (56)	40% (117)
Availability of affordable quality physical health care	1% (4)	37% (107)	24% (68)	19% (55)	19% (54)
Availability of affordable quality mental health care	2% (7)	23% (65)	16% (47)	24% (68)	35% (100)
Availability of preventive health services (e.g., health screenings, flu shots, educational workshops)	11% (31)	44% (126)	23% (67)	12% (36)	10% (29)
Recreation opportunities (including games, arts, library services, etc.)	5% (14)	36% (107)	38% (112)	13% (39)	8% (24)
Fitness opportunities (including exercise classes and paths or trails, etc.)	10% (28)	44% (128)	26% (75)	14% (40)	7% (19)
Opportunities participate in community matters	2% (5)	34% (100)	31% (91)	15% (45)	18% (55)
Opportunities to volunteer	10% (31)	37% (108)	33% (97)	6% (18)	14% (41)
Opportunities to enroll in skill-building or personal enrichment classes	0% (0)	15% (44)	24% (70)	21% (62)	40% (117)

Characteristic	Excellent	Good	Fair	Poor	Don't Know
Opportunities to attend social events or activities	6% (19)	26% (75)	37% (108)	14% (41)	17% (50)
Opportunities to attend religious or spiritual activities	26% (78)	46% (134)	19% (56)	3% (10)	6% (17)
Openness and acceptance of the community towards older residents of diverse backgrounds	7% (22)	34% (100)	30% (90)	11% (34)	17% (51)
Making all residents feel welcome	6% (19)	41% (120)	29% (86)	15% (44)	9% (27)
Valuing older residents in your community	5% (13)	30% (90)	33% (99)	16% (48)	15% (46)
Neighborliness of your community	7% (20)	39% (117)	31% (93)	15% (44)	8% (22)

9. Older adults may or may not face a number of challenges. Thinking back over the last 12 months, how much of a problem, if at all, have each of the following been for you?

Characteristic	Not a Problem	Minor Problem	Moderate Problem	Major Problem	Don't Know
Having enough money to meet daily expenses	56% (168)	16% (49)	14% (43)	13% (38)	0% (1)
Having enough money to pay your property taxes	65% (191)	12% (36)	8% (23)	5% (14)	10% (30)
Having housing to suit your needs	69% (208)	14% (42)	9% (26)	5% (14)	3% (10)

Characteristic	Not a Problem	Minor Problem	Moderate Problem	Major Problem	Don't Know
Doing heavy or intense housework	35% (104)	26% (77)	23% (68)	13% (38)	3% (8)
Maintaining your home	47% (137)	29% (84)	13% (37)	12% (35)	0% (0)
Maintaining your yard	55% (159)	18% (51)	12% (34)	10% (29)	5% (14)
Having safe and affordable transportation available	67% (197)	11% (32)	15% (45)	4% (10)	4% (10)
No longer being able to drive	65% (181)	2% (7)	9% (24)	7% (19)	17% (49)
Finding work in retirement	48% (140)	9% (25)	4% (12)	7% (21)	32% (94)
Building skills for paid or unpaid work	38% (102)	9% (25)	9% (24)	9% (25)	35% (95)
Having adequate information or dealing with public programs such as Social Security, Medicare, and Medicaid	38% (113)	29% (86)	16% (48)	8% (24)	10% (29)
Not knowing what services are available to older adults in your community	22% (65)	30% (89)	16% (47)	17% (51)	15% (44)
Your physical health	40% (118)	36% (106)	20% (60)	4% (13)	0% (0)
Falling or injuring yourself in your home	68% (196)	24% (70)	4% (11)	4% (11)	1% (2)
Finding affordable health insurance	64% (189)	16% (48)	7% (20)	10% (30)	4% (11)

Characteristic	Not a Problem	Minor Problem	Moderate Problem	Major Problem	Don't Know
Getting the health care you need	61% (181)	23% (67)	10% (31)	5% (15)	0% (1)
Getting the oral health care you need	62% (183)	19% (55)	12% (36)	6% (17)	2% (6)
Getting the vision care you need	64% (188)	21% (62)	12% (34)	3% (10)	1% (2)
Affording the medications you need	64% (187)	12% (36)	15% (44)	9% (26)	0% (1)
Staying physically fit	42% (124)	31% (91)	21% (62)	6% (19)	0% (1)
Maintaining a healthy diet	49% (141)	31% (89)	14% (40)	7% (21)	0% (1)
Having enough food to eat	78% (231)	14% (41)	7% (21)	1% (3)	0% (0)
Experiencing confusion or forgetfulness	61% (181)	27% (81)	6% (17)	1% (3)	5% (15)
Feeling depressed	62% (185)	29% (86)	6% (18)	2% (6)	2% (5)
Feeling bored	51% (153)	34% (101)	11% (34)	2% (6)	2% (5)
Having friends or family you can rely on	69% (207)	23% (68)	5% (14)	4% (10)	0% (0)
Feeling lonely or isolated	66% (192)	27% (80)	3% (10)	2% (6)	2% (4)
Dealing with the loss of a close family member or friend	52% (155)	24% (72)	14% (43)	3% (10)	6% (17)

Characteristic	Not a Problem	Minor Problem	Moderate Problem	Major Problem	Don't Know
Being a victim of crime	83% (248)	6% (17)	2% (6)	2% (7)	7% (21)
Being a victim of fraud or a scam	63% (183)	16% (46)	12% (34)	5% (15)	5% (15)
Being physically or emotionally abused	85% (256)	6% (17)	4% (11)	2% (6)	3% (9)
Being treated unfairly or discriminated against because of your age	78% (232)	11% (32)	4% (11)	5% (14)	4% (11)
Feeling like you don't fit in or belong	67% (199)	20% (60)	7% (22)	3% (10)	2% (6)
Feeling like your voice is heard in the community	43% (127)	19% (57)	11% (32)	7% (20)	20% (58)
Feeling PHYSICALLY burdened by providing care for another person	71% (213)	19% (58)	3% (8)	1% (3)	5% (16)
Feeling EMOTIONALLY burdened by providing care for another person	62% (186)	28% (83)	4% (12)	1% (3)	5% (15)
Feeling FINANCIALLY burdened by providing care for another person	76% (225)	11% (34)	6% (19)	2% (7)	4% (12)

10. Thinking back over the past 12 months, how much time did you spend in each of the following?

Characteristic	0 Days	1-2 Days	3-5 Days	6 or More Days
As a patient in a hospital	78% (227)	10% (28)	8% (24)	5% (13)
In a long-term care facility (including nursing home or in-patient rehabilitation facility)	96% (272)	0% (0)	1% (3)	3% (7)

11. Thinking back over the past 12 months, how many times have you fallen and injured yourself?

Answer Choice	Percent
Never	66% (197)
1 to 2 times	27% (82)
3 to 5 times	4% (13)
More than 5 times	1% (3)
Don't know	2% (6)

12. Please indicate whether or not you have done each of the following in the last 12 months.

Characteristic	No	Yes
Attended a local public meeting (of local elected officials like City Council or County Commissioners, advisory boards, town halls, HOA, neighborhood watch, etc.)	82% (247)	18% (54)
Watched (online or on television) a local public meeting	80% (240)	20% (61)
Voted in your most recent local election	13% (38)	87% (259)
Participated in a civic group (including Elks, Kiwanis, Masons, etc.)	87% (260)	13% (37)
Used a senior center in your community	80% (239)	20% (59)
Used a public library in your community	53% (158)	47% (139)
Used a recreation center in your community	80% (240)	20% (61)
Participated in a recreation program or group activity	74% (220)	26% (78)
Participated in religious or spiritual activities with others	37% (109)	63% (189)
Participated in a club (including book, dance, game, and other social)	70% (211)	30% (90)

13. During a typical week, how many hours do you spend:

Characteristic	Never	1-3 Hours	4-5 Hours	6-10 Hours	11-19 Hours	20 or More Hours	Don't Know
Assisting friends, relatives, or neighbors	15% (43)	46% (138)	11% (34)	12% (35)	3% (9)	8% (23)	5% (16)
Volunteering your time	46% (127)	30% (84)	11% (30)	4% (10)	0% (1)	3% (8)	6% (16)
Talking or visiting with friends/family	2% (7)	38% (112)	20% (59)	22% (65)	8% (24)	7% (22)	3% (10)
Providing care to someone age 55+	52% (152)	17% (48)	7% (22)	9% (26)	7% (20)	6% (16)	2% (7)
Providing care to someone age 18 to 54	82% (245)	8% (23)	3% (9)	1% (4)	2% (5)	4% (11)	0% (1)
Providing care someone under age 18	77% (232)	11% (33)	3% (9)	3% (10)	2% (5)	1% (3)	2% (7)

14. In general, how many times do you:

Characteristic	Several Times a Day	Once a Day	A Few Times a Week	Every Few Weeks	Less Often or Never	Don't Know
Access the internet from your home using a computer, laptop, or tablet computer	53% (158)	14% (42)	8% (24)	3% (8)	22% (65)	0% (0)
Access the internet from your cell phone	50% (149)	7% (20)	11% (33)	3% (7)	29% (85)	1% (2)
Visit social media sites such as Facebook, Twitter, Nextdoor, etc.	42% (126)	12% (36)	13% (38)	1% (2)	31% (95)	2% (5)
Use or check email	50% (151)	16% (49)	12% (37)	1% (4)	19% (56)	1% (4)
Share your opinions online	12% (37)	2% (6)	5% (14)	13% (38)	62% (185)	7% (21)
Shop online	3% (10)	2% (7)	16% (48)	33% (99)	45% (134)	1% (3)

15. How many years have you lived in your community?

Answer Choice	Percent
Less than 2 years	2% (6)
2-5 years	10% (32)
6-10 years	12% (36)
11-20 years	13% (38)
More than 20 years	63% (189)

16. Which best describes the building you live in?

Answer Choice	Percent
Single family home	58% (175)
Townhouse, condominium, duplex, or apartment	25% (74)
Mobile home	9% (26)
Assisted living residence	5% (15)
Nursing home	0% (0)
Other	4% (11)

17. Do you rent or own your home?

Answer Choice	Percent
Rent	20% (58)
Own (with a mortgage payment)	27% (81)
Own (free and clear; no mortgage)	53% (155)

18. About how much is your monthly housing cost for the place you live (including rent, mortgage payment, property tax, property insurance, and homeowners' association (HOA) fees)?

Answer Choice	Percent
Less than \$300 per month	20% (58)
\$300 to \$599 per month	39% (111)
\$600 to \$999 per month	25% (73)
\$1,000 to \$1,499 per month	8% (24)
\$1,500 to \$2,499 per month	4% (11)
\$2,500 or more per month	4% (12)

19. How many people, including yourself, live in your household?

Answer Choice	Percent
1 person (live alone)	34% (100)
2 people	56% (164)
3 people	9% (26)
4 or more people	1% (4)

20. How many of these people, including yourself, are 65 or older?

Answer Choice	Percent
1 person	67% (162)
2 people	31% (75)
3 people	0% (0)
4 or more people	2% (5)

21. What is your employment status?

Answer Choice	Percent
Fully retired	73% (215)
Working full time for pay	15% (43)
Working part time for pay	10% (30)
Unemployed, looking for paid work	2% (6)

22. At what age do you expect to retire completely and not work for pay at all? (Please enter a whole number.)

Answer Choice	Percent
55 to 59	0% (0)
60 to 64	10% (2)
65 to 67	15% (3)
68 or 69	10% (2)
70 to 72	30% (6)
73 or above	35% (7)

23. How much do you anticipate your household's total income before taxes will be for the current year?
(Please include in your total income money from all sources for all persons living in your household.)

Answer Choice	Percent
Less than \$15,000	13% (36)
\$15,000 to \$24,999	20% (57)
\$25,000 to \$49,999	35% (99)
\$50,000 to \$74,999	11% (32)
\$75,000 to \$99,999	7% (20)
\$100,000 or more	13% (36)

24. Are you Spanish, Hispanic, or Latino?

Answer Choice	Percent
No, not of Hispanic, Latino/a/x, or Spanish origin	97% (286)
Yes, I consider myself to be of Hispanic, Latino/a/x, or Spanish origin	3% (9)

25. What is your race? (Mark one or more races to indicate what race you consider yourself to be.)

Answer Choice	Percent
American Indian or Alaska Native	0% (1)
Asian	0% (0)
Black or African American	4% (12)
Native Hawaiian or Other Pacific Islander	0% (0)
White	94% (273)
A race not listed	2% (5)

26. In which category is your age?

Answer Choice	Percent
50-54 years	1% (4)
55-59 years	3% (8)
60-64 years	24% (70)
65-69 years	22% (64)
70-74 years	21% (62)
75-79 years	6% (19)
80-84 years	13% (37)
85-89 years	6% (17)
90-94 years	3% (9)
95 years or older	1% (4)

27. What is your sex?

Answer Choice	Percent
Female	53% (158)
Male	45% (135)

28. What is your sexual orientation?

Answer Choice	Percent
Heterosexual	97% (258)
Lesbian	0% (1)
Gay	0% (0)
Bisexual	0% (0)
Identify in another way	3% (7)

Section 15: Full Responses to Survey Questions (Excluding No Opinion)

These results include all questions. The results include the percentage that responded for each answer choice and the number of responses. If the choices included a choice with no opinion (like don't know or not applicable), the tables in the prior section show the results with those no opinion choices. This section shows the results without those choices.

1. Please rate each of the following aspects of quality of life in Indiana.

Not including don't know

Characteristic	Excellent	Good	Fair	Poor
Your community as a place to live	24% (72)	49% (146)	25% (75)	3% (9)
Your neighborhood as a place to live	33% (98)	47% (141)	14% (40)	6% (19)
Your community as a place to retire	24% (72)	39% (116)	30% (89)	7% (21)
Sense of community in your community	23% (66)	38% (107)	29% (82)	10% (29)
The overall quality of life in your community	19% (56)	51% (150)	25% (73)	5% (14)

2. Please rate each of the following characteristics as they relate to your community as a whole.

Not including don't know

Characteristic	Excellent	Good	Fair	Poor
Overall economic health of your community	6% (17)	38% (106)	46% (128)	10% (27)
Overall quality of the transportation system (auto, bicycle, foot, bus) in your community	7% (20)	47% (135)	35% (99)	12% (33)
Overall design or layout of your community's residential and commercial areas (e.g., homes, buildings, streets, parks, etc.)	6% (16)	53% (155)	33% (95)	9% (25)

Overall feeling of safety in your community	17% (50)	53% (155)	27% (78)	3% (10)
Overall quality of natural environment in your community	13% (36)	53% (150)	32% (90)	3% (9)
Overall quality of parks and recreation opportunities	17% (47)	54% (148)	22% (61)	7% (20)
Overall health and wellness opportunities in your community	7% (20)	55% (153)	25% (68)	13% (35)
Overall opportunities for education, culture, and the arts	10% (27)	41% (111)	34% (92)	14% (38)

3. How would you rate the overall services provided to older adults in your community?

Not including don't know

Answer Choice	Percent
Excellent	4% (10)
Good	46% (114)
Fair	38% (94)
Poor	13% (31)

4. Please indicate how likely or unlikely you are to do each of the following.

Not including don't know

Characteristic	Very Likely	Somewhat Likely	Somewhat Unlikely	Very Unlikely
Recommend living in your community to older adults	27% (77)	43% (121)	15% (44)	15% (41)
Remain in your community throughout your retirement	49% (143)	29% (85)	16% (47)	6% (18)

5. In general, how informed or uninformed do you feel about services and activities available to older adults in your community?

Answer Choice	Percent
Very informed	14% (41)
Somewhat informed	49% (148)
Somewhat uninformed	24% (72)
Very uninformed	13% (40)

6. Please rate the quality of each of the following.

Not including don't know

Characteristic	Excellent	Good	Fair	Poor
Your overall physical health	13% (39)	60% (181)	22% (65)	5% (15)
Your overall mental health/emotional wellbeing	22% (65)	66% (199)	11% (32)	1% (4)
Your overall quality of life	13% (39)	67% (197)	17% (51)	3% (9)

7. What impact, if any, do you think the economy will have on your family income in the next 6 months? Do you think the impact will be:

Answer Choice	Percent
Very positive	3% (8)
Somewhat positive	13% (40)
Neutral	39% (119)
Somewhat negative	34% (102)
Very negative	11% (32)

8. Please rate each of the following characteristics as they relate to older adults in your community.

Not including don't know

Characteristic	Excellent	Good	Fair	Poor
Ease of travel by public transportation in your community	6% (15)	33% (82)	27% (69)	34% (86)
Ease of travel by car in your community	31% (90)	59% (169)	8% (22)	2% (5)
Ease of walking in your community	17% (48)	48% (134)	25% (70)	10% (28)

Not including don't know

Characteristic	Excellent	Good	Fair	Poor
Ease of getting to the places you usually have to visit	24% (66)	54% (147)	18% (50)	4% (11)
Opportunities to build work skills	5% (11)	34% (68)	37% (74)	24% (49)
Quality of employment opportunities for older adults	5% (9)	17% (31)	40% (74)	38% (70)
Variety of employment opportunities for older adults	4% (7)	19% (36)	38% (72)	40% (78)
Cost of living in your community	4% (10)	35% (94)	46% (122)	15% (41)
Availability of affordable quality food	6% (18)	45% (123)	32% (89)	17% (46)
Availability of affordable quality housing	3% (8)	36% (90)	39% (96)	22% (53)
Variety of housing options	1% (3)	34% (79)	35% (83)	30% (71)
Availability of accessible housing (e.g., homes with a no step entry, single-floor living, wide hallways and doorways)	1% (2)	25% (51)	42% (85)	32% (65)

14. In general, how many times do you:

Not including don't know

Characteristic	Several Times a Day	Once a Day	A Few Times a Week	Every Few Weeks	Less Often or Never
Access the internet from your home using a computer, laptop, or tablet computer	53% (158)	14% (42)	8% (24)	3% (8)	22% (65)
Access the internet from your cell phone	51% (149)	7% (20)	11% (33)	3% (7)	29% (85)
Visit social media sites such as Facebook, Twitter, Nextdoor, etc.	42% (126)	12% (36)	13% (38)	1% (2)	32% (95)
Use or check email	51% (151)	16% (49)	13% (37)	1% (4)	19% (56)
Share your opinions online	13% (37)	2% (6)	5% (14)	13% (38)	66% (185)
Shop online	3% (10)	2% (7)	16% (48)	33% (99)	45% (134)

15. How many years have you lived in your community?

Answer Choice	Percent
Less than 2 years	2% (6)
2-5 years	10% (32)
6-10 years	12% (36)
11-20 years	13% (38)
More than 20 years	63% (189)

16. Which best describes the building you live in?

Answer Choice	Percent
Single family home	58% (175)
Townhouse, condominium, duplex, or apartment	25% (74)
Mobile home	9% (26)
Assisted living residence	5% (15)
Nursing home	0% (0)
Other	4% (11)

17. Do you rent or own your home?

Answer Choice	Percent
Rent	20% (58)
Own (with a mortgage payment)	27% (81)
Own (free and clear; no mortgage)	53% (155)

18. About how much is your monthly housing cost for the place you live (including rent, mortgage payment, property tax, property insurance, and homeowners' association (HOA) fees)?

Answer Choice	Percent
Less than \$300 per month	20% (58)
\$300 to \$599 per month	39% (111)
\$600 to \$999 per month	25% (73)
\$1,000 to \$1,499 per month	8% (24)
\$1,500 to \$2,499 per month	4% (11)
\$2,500 or more per month	4% (12)

19. How many people, including yourself, live in your household?

Answer Choice	Percent
1 person (live alone)	34% (100)
2 people	56% (164)
3 people	9% (26)
4 or more people	1% (4)

20. How many of these people, including yourself, are 65 or older?

Answer Choice	Percent
1 person	67% (162)
2 people	31% (75)
3 people	0% (0)
4 or more people	2% (5)

21. What is your employment status?

Answer Choice	Percent
Fully retired	73% (215)
Working full time for pay	15% (43)
Working part time for pay	10% (30)
Unemployed, looking for paid work	2% (6)

22. At what age do you expect to retire completely and not work for pay at all? (Please enter a whole number.)

Answer Choice	Percent
55 to 59	0% (0)
60 to 64	10% (2)
65 to 67	15% (3)
68 or 69	10% (2)
70 to 72	30% (6)
73 or above	35% (7)

23. How much do you anticipate your household's total income before taxes will be for the current year?
(Please include in your total income money from all sources for all persons living in your household.)

Answer Choice	Percent
Less than \$15,000	13% (36)
\$15,000 to \$24,999	20% (57)
\$25,000 to \$49,999	35% (99)
\$50,000 to \$74,999	11% (32)
\$75,000 to \$99,999	7% (20)
\$100,000 or more	13% (36)

24. Are you Spanish, Hispanic, or Latino?

Answer Choice	Percent
No, not of Hispanic, Latino/a/x, or Spanish origin	97% (286)
Yes, I consider myself to be of Hispanic, Latino/a/x, or Spanish origin	3% (9)

25. What is your race? (Mark one or more races to indicate what race you consider yourself to be.)

Answer Choice	Percent
American Indian or Alaska Native	0% (1)
Asian	0% (0)
Black or African American	4% (12)
Native Hawaiian or Other Pacific Islander	0% (0)
White	94% (273)
A race not listed	2% (5)

26. In which category is your age?

Answer Choice	Percent
50-54 years	1% (4)
55-59 years	3% (8)
60-64 years	24% (70)
65-69 years	22% (64)
70-74 years	21% (62)
75-79 years	6% (19)
80-84 years	13% (37)
85-89 years	6% (17)
90-94 years	3% (9)
95 years or older	1% (4)

27. What is your sex?

Answer Choice	Percent
Female	53% (158)
Male	45% (135)

28. What is your sexual orientation?

Answer Choice	Percent
Heterosexual	97% (258)
Lesbian	0% (1)
Gay	0% (0)
Bisexual	0% (0)
Identify in another way	3% (7)

Section 16: National benchmark comparisons

Rated characteristics are eligible for trend and benchmark comparisons. For trends, the characteristic must have been asked in a prior survey, and to be statistically significant the difference between the last measurement and current measurements must be at least 7 percentage points. All characteristics should have benchmarks, and to be statistically significant (more/less favorable), the difference must be at least 10 points. To be much more favorable/unfavorable, difference must be at least 20 points.

Demographic questions aren't eligible for trend and benchmark comparisons. Though all survey questions are listed in this section, demographic questions are noted as not having trends or benchmarks.

1. Please rate each of the following aspects of quality of life in Indiana.

Percent reporting *excellent* or *good*.

Characteristic	% Positive	National Benchmark	Rank	# of Compared Communities
Your community as a place to live	72%	—	193	234
Your neighborhood as a place to live	80%	—	138	188
Your community as a place to retire	63%	—	141	234
Sense of community in your community	61%	—	94	234
The overall quality of life in your community	70%	—	144	188

2. Please rate each of the following characteristics as they relate to your community as a whole.

Percent reporting *excellent* or *good*.

Characteristic	% Positive	National Benchmark	Rank	# of Compared Communities
Overall economic health of your community	44%		150	188
Overall quality of the transportation system (auto, bicycle, foot, bus) in your community	54%		139	188
Overall design or layout of your community's residential and commercial areas (e.g., homes, buildings, streets, parks, etc.)	59%		126	188
Overall quality of the utility infrastructure in your community (water, sewer, storm water, electric, gas)	70%		46	73
Overall feeling of safety in your community	70%		154	234
Overall quality of natural environment in your community	65%		149	188
Overall quality of parks and recreation opportunities	71%		47	73
Overall health and wellness opportunities in your community	63%		153	188
Overall opportunities for education, culture, and the arts	51%		151	188
Residents' connection and engagement with their community	43%		52	73

3. How would you rate the overall services provided to older adults in your community?

Percent reporting *excellent* or *good*.

Characteristic	% Positive	National Benchmark	Rank	# of Compared Communities
How would you rate the overall services provided to older adults in your community?	50%	–	44	83

4. Please indicate how likely or unlikely you are to do each of the following.

Percent reporting *very likely* or *somewhat likely*.

Characteristic	% Positive	National Benchmark	Rank	# of Compared Communities
Recommend living in your community to older adults	70%	∨	192	234
Remain in your community throughout your retirement	78%	–	50	83

5. In general, how informed or uninformed do you feel about services and activities available to older adults in your community?

Percent reporting *very informed* or *somewhat informed*.

Characteristic	% Informed	National Benchmark	Rank	# of Compared Communities
In general, how informed or uninformed do you feel about services and activities available to older adults in your community?	63%	-	-	-

6. Please rate the quality of each of the following.

Characteristic	% Positive	National Benchmark	Rank	# of Compared Communities
Your overall physical health	73%	-	188	233
Your overall mental health/emotional wellbeing	88%	-	45	83
Your overall quality of life	80%	-	67	83

7. What impact, if any, do you think the economy will have on your family income in the next 6 months? Do you think the impact will be:

Percent reporting *very positive* or *somewhat positive*.

Characteristic	% Positive	National Benchmark	Rank	# of Compared Communities
What impact, if any, do you think the economy will have on your family income in the next 6 months? Do you think the impact will be:	16%		173	188

8. Please rate each of the following characteristics as they relate to older adults in your community.

Percent reporting *excellent* or *good*.

Characteristic	% Positive	National Benchmark	Rank	# of Compared Communities
Ease of travel by public transportation in your community	38%		108	219
Ease of travel by car in your community	90%		13	234
Ease of walking in your community	65%		113	234

Percent reporting *excellent* or *good*.

Characteristic	% Positive	National Benchmark	Rank	# of Compared Communities
Ease of getting to the places you usually have to visit	78%		6	38
Opportunities to build work skills	39%		12	36
Quality of employment opportunities for older adults	22%		185	233
Variety of employment opportunities for older adults	22%		22	36
Cost of living in your community	39%		115	234
Availability of affordable quality food	51%		196	229
Availability of affordable quality housing	40%		88	233
Variety of housing options	35%		166	233
Availability of accessible housing (e.g., homes with a no step entry, single-floor living, wide hallways and doorways)	26%		23	36
Availability of mixed-use neighborhoods where people live close to places where they can eat, shop, work, and receive services	30%		12	36
Public places where people want to spend time	26%		167	187
Availability of information about resources for older adults	26%		57	83

Percent reporting *excellent* or *good*.

Characteristic	% Positive	National Benchmark	Rank	# of Compared Communities
Availability of financial or legal planning services	37%		29	83
Availability of long-term care options	46%		16	83
Availability of daytime care options for older adults	30%		31	83
Availability of affordable quality physical health care	48%		179	228
Availability of affordable quality mental health care	39%		149	227
Availability of preventive health services (e.g., health screenings, flu shots, educational workshops)	60%		149	226
Recreation opportunities (including games, arts, library services, etc.)	45%		207	232
Fitness opportunities (including exercise classes and paths or trails, etc.)	57%		189	231
Opportunities participate in community matters	43%		213	233
Opportunities to volunteer	55%		99	120
Opportunities to enroll in skill-building or personal enrichment classes	25%		68	83

Percent reporting *excellent* or *good*.

Characteristic	% Positive	National Benchmark	Rank	# of Compared Communities
Opportunities to attend social events or activities	38%		208	233
Opportunities to attend religious or spiritual activities	76%		51	83
Openness and acceptance of the community towards older residents of diverse backgrounds	49%		186	234
Making all residents feel welcome	52%		55	73
Valuing older residents in your community	41%		65	83
Neighborliness of your community	50%		94	119

9. Older adults may or may not face a number of challenges. Thinking back over the last 12 months, how much of a problem, if at all, have each of the following been for you?

Percent reporting *moderate problem* or *major problem*.

Characteristic	% Problematic	National Benchmark	Rank	# of Compared Communities
Having enough money to meet daily expenses	44%		52	83
Having enough money to pay your property taxes	28%		52	83
Having housing to suit your needs	28%		57	83

Percent reporting *moderate problem* or *major problem*.

Characteristic	% Problematic	National Benchmark	Rank	# of Compared Communities
Doing heavy or intense housework	64%	—	56	83
Maintaining your home	53%	—	56	83
Maintaining your yard	42%	—	23	83
Having safe and affordable transportation available	31%	—	46	83
No longer being able to drive	22%	—	66	82
Finding work in retirement	29%	—	27	83
Building skills for paid or unpaid work	42%	—	61	82
Having adequate information or dealing with public programs such as Social Security, Medicare, and Medicaid	58%	—	69	83
Not knowing what services are available to older adults in your community	74%	—	60	83
Your physical health	60%	—	44	83
Falling or injuring yourself in your home	32%	—	48	83
Finding affordable health insurance	34%	—	10	83

Percent reporting *moderate problem* or *major problem*.

Characteristic	% Problematic	National Benchmark	Rank	# of Compared Communities
Getting the health care you need	38%	—	53	83

Experiencing confusion or forgetfulness	36%	—	49	83
Feeling depressed	37%	—	26	83
Feeling bored	48%	—	61	83
Having friends or family you can rely on	31%	—	33	83
Feeling lonely or isolated	33%	—	27	82
Dealing with the loss of a close family member or friend	44%	—	54	83

Percent reporting *moderate problem* or *major problem*.

Characteristic	% Problematic	National Benchmark	Rank	# of Compared Communities
Being a victim of crime	11%		28	81
Being a victim of fraud or a scam	34%		83	83
Being physically or emotionally abused	12%		70	81
Being treated unfairly or discriminated against because of your age	20%		14	36
Feeling like you don't fit in or belong	32%		16	36
Feeling like your voice is heard in the community	46%		27	83
Feeling PHYSICALLY burdened by providing care for another person	25%		51	83
Feeling EMOTIONALLY burdened by providing care for another person	35%		76	83
Feeling FINANCIALLY burdened by providing care for another person	21%		53	83

10. Thinking back over the past 12 months, how much time did you spend in each of the following?

Percent reporting *1-2 days, 3-5 days or 6 or more days.*

Characteristic	% of Respondents	National Benchmark	Rank	# of Compared Communities
As a patient in a hospital	22%		40	83
In a long-term care facility (including nursing home or in-patient rehabilitation facility)	4%		24	69

11. Thinking back over the past 12 months, how many times have you fallen and injured yourself?

Percent reporting *1 to 2 times, 3 to 5 times or more than 5 times.*

Characteristic	% of Respondents	National Benchmark	Rank	# of Compared Communities
Thinking back over the past 12 months, how many times have you fallen and injured yourself?	33%		56	83

12. Please indicate whether or not you have done each of the following in the last 12 months.

Percent reporting *yes*.

Characteristic	% Positive	National Benchmark	Rank	# of Compared Communities
Attended a local public meeting (of local elected officials like City Council or County Commissioners, advisory boards, town halls, HOA, neighborhood watch, etc.)	18%	–	179	233
Watched (online or on television) a local public meeting	20%	–	32	82
Voted in your most recent local election	87%	–	15	73
Participated in a civic group (including Elks, Kiwanis, Masons, etc.)	13%	–	34	83
Used a senior center in your community	20%	–	22	81
Used a public library in your community	47%	–	60	83
Used a recreation center in your community	20%	–	68	83
Participated in a recreation program or group activity	26%	–	61	83
Participated in religious or spiritual activities with others	63%	^	9	83
Participated in a club (including book, dance, game, and other social)	30%	–	34	83

13. During a typical week, how many hours do you spend:

Percent reporting *1 to 3 hours, 4 to 5 hours, 6 to 10 hours, 11 to 19 hours or 20 or more hours.*

Characteristic	% of Respondents	National Benchmark	Rank	# of Compared Communities
Assisting friends, relatives, or neighbors	85%	–	16	83
Volunteering your time	51%	–	18	83
Talking or visiting with friends/family	97%	–	13	83
Providing care to someone age 55+	46%	^	7	83
Providing care to someone age 18 to 54	18%	–	19	83
Providing care someone under age 18	21%	–	19	82

14. In general, how many times do you:

Percent reporting *several times a day, once a day* or a *few times a week*.

Characteristic	% of Respondents	National Benchmark	Rank	# of Compared Communities
Access the internet from your home using a computer, laptop, or tablet computer	75%	—	59	73
Access the internet from your cell phone	68%	—	53	73
Visit social media sites such as Facebook, Twitter, Nextdoor, etc.	67%	—	23	73
Use or check email	80%	—	55	73
Share your opinions online	20%	—	63	73
Shop online	22%	—	59	73

15. How many years have you lived in your community?

Because this is a demographic question, it doesn't have trends or benchmarks.

16. Which best describes the building you live in?

Because this is a demographic question, it doesn't have trends or benchmarks.

17. Do you rent or own your home?

Because this is a demographic question, it doesn't have trends or benchmarks.

18. About how much is your monthly housing cost for the place you live (including rent, mortgage payment, property tax, property insurance, and homeowners' association (HOA) fees)?

Because this is a demographic question, it doesn't have trends or benchmarks.

19. How many people, including yourself, live in your household?

Because this is a demographic question, it doesn't have trends or benchmarks.

20. How many of these people, including yourself, are 65 or older?

Because this is a demographic question, it doesn't have trends or benchmarks.

21. What is your employment status?

Because this is a demographic question, it doesn't have trends or benchmarks.

22. At what age do you expect to retire completely and not work for pay at all? (Please enter a whole number.)

Because this is a demographic question, it doesn't have trends or benchmarks.

23. How much do you anticipate your household's total income before taxes will be for the current year? (Please include in your total income money from all sources for all persons living in your household.)

Because this is a demographic question, it doesn't have trends or benchmarks.

24. Are you Spanish, Hispanic, or Latino?

Because this is a demographic question, it doesn't have trends or benchmarks.

25. What is your race? (Mark one or more races to indicate what race you consider yourself to be.)

Because this is a demographic question, it doesn't have trends or benchmarks.

26. In which category is your age?

Because this is a demographic question, it doesn't have trends or benchmarks.

27. What is your sex?

Because this is a demographic question, it doesn't have trends or benchmarks.

28. What is your sexual orientation?

Because this is a demographic question, it doesn't have trends or benchmarks.

Section 17: Methods

About the Community Assessment Survey for Older Adults (CASOA)[™]

The Community Assessment Survey for Older Adults (CASOA)[™] was developed by National Research Center at Polco (NRC) to provide an accurate, affordable and easy way to assess and interpret the experience of older adults in the community. The CASOA[™] survey instrument and its administration are standardized to assure high-quality survey methods and comparable results across CASOA communities. The CASOA was customized for Area Five Agency on Aging and Community Services to reflect the correct local age definition of older adults and to use official Area Five Agency on Aging and Community Services graphics, contact information and signatures on survey invitation mailing materials. The Area Five Agency on Aging and Community Services sponsored and funded this research. Please contact Charles LaDow of the Area Five Agency on Aging and Community Services at cladow@areafive.com if you have any questions about the survey.

Questionnaire Development

The CASOA questionnaire contains many questions related to the life of older residents in the community. The instrument includes questions related to overall quality of life, characteristics of the community, perceptions of safety, and many different needs common to older adults.

The questionnaire grew from a synthesis of numerous data collection processes, including a national search of needs assessments conducted by communities across the United States, a review of the literature on aging, and numerous surveys and large-scale needs assessments conducted by NRC. A blue-ribbon panel of national experts contributed to the concept and content of CASOA.

The items in the questionnaire were pilot tested on older adult residents using a “think-aloud” method in which older adults were asked to complete the survey and describe their thought processes related to specific questions and question sets. The results of the pilot test were used to alter the questionnaire for better understanding by senior participants. The final questionnaire was tested in a set of diverse U.S. communities and modifications again were made as necessary.

Random (Probability) Sample Survey

Selecting Survey Recipients

One of the first steps taken to ensure survey results are representative of the target population is to use a source from which survey recipients are selected that provides adequate to good coverage of the target population. This source is referred to as the sampling frame.

The target population for this survey was residents age 60 years or older in households within the Area Five Agency on Aging and Community Services boundaries.

Since it would be cost prohibitive to survey every person age 60 years or older in Area Five Agency on Aging and Community Services, a random selection of records from the sampling frame was made. This process can be illustrated using an example that may be familiar from a math or statistics class of a jar of marbles of various colors. If the jar has two-thirds red marbles and one-third blue marbles, a random selection of marbles from that jar should result in a similar proportion (although perhaps not identical) of red and blue marbles as in the original jar.

The sampling frame used for this survey was a list of households with a high likelihood of having a resident age 60 years or older within the Area Five Agency on Aging and Community Services from Marketing Systems Group. These lists, compiled by sampling and marketing firms based on data from multiple sources (such as warranty information, voting lists, and more), provide fairly complete coverage of all members of the target population. The sampling for this AAA was part of an overall statewide sampling plan. Older adult households were selected randomly, but the selection was stratified by AAA and county to engender robust response at each reporting level (State, AAA and subarea when needed). As would happen randomly (i.e., proportionally), more households were selected in larger population areas than smaller ones, but a minimum of 2,700 households were mailed to in each AAA. Additionally, some of the AAAs with additional reporting needs funded mailing to additional households in their areas.

Data Collection

Each randomly selected household received two mailings, about one week apart, beginning on October, 21, 2021. The first mailing was a prenotification postcard

announcing the upcoming survey. This half-sheet postcard included a URL so that recipients could immediately go online to complete the survey if they wished. The second mailing contained a letter from the Executive Director inviting the household to participate, a printed questionnaire and a postage-paid return envelope. The survey was available in English. At the end of November 2021, response levels for each AAA were reviewed and a second sample of 15,000 additional addresses statewide were selected to be sent a paper survey to augment low response in some areas. This mailing was sent in the first week of December and data collection was extended to January 14th. This increased the overall Statewide sample size from 70,097 households to 85,097 total households (as reflected in the response rate calculations). Completed surveys were collected over the following 12 weeks.

About 107 (3%) of the 3350 surveys mailed were returned because the housing unit was vacant or the postal service was unable to deliver the survey as addressed. Of the remaining households that received the survey, 345 completed the survey, providing an overall response rate of 10.39. Of the total surveys received, 271 were completed using the hard copy surveys while 66 were submitted online. Response rates are calculated using AAPOR's response rate #2¹ for mailed surveys of unnamed persons.

Open Participation Survey

In addition to the random sample "probability" survey described above, an open participation survey was conducted, in which all older adults age 60 years or older were invited to participate. The open participation survey instrument was identical to the probability sample survey. This survey was conducted entirely online. For the open participation survey a single URL was provided to contacts from the State of Indiana and each AAA to share with constituents through email lists, social media accounts, service settings and community partners. The URL directed community members to a short survey where they indicated their geographic location and were directed to the survey for the appropriate AAA. conducted all outreach, after receiving guidance on best practices for conducting such outreach from Polco. This guidance suggested the use of social media, press releases, newsletters and e-newsletters, existing resident email lists, printed materials, and invitations publicized at local and virtual meetings. This survey became available to all residents on 10/21/21 and remained open until 1/14/2022. A total of 8 surveys were completed by open participation survey respondents.

Analysis and Reporting

Confidence Intervals

It is customary to describe the precision of estimates made from probability surveys by a “level of confidence” and accompanying “confidence interval” (or margin of error). A traditional level of confidence, and the one used here, is 95%. The 95% confidence interval can be any size and quantifies the sampling error or imprecision of the survey results because some residents’ opinions are relied on to estimate all residents’ opinions.²

The margin of error for the Area Five Agency on Aging and Community Services survey is no greater than plus or minus 5.34 percentage points around any given percent reported for all probability survey respondents (337). For subgroups of responses, the margin of error increases because the number of respondents for each subgroup is smaller. For subgroups of approximately 100 respondents, the margin of error is plus or minus 10 percentage points.

The open participation survey results were combined with responses from the probability sample survey, for a total of 345 completed surveys. With the inclusion of the open participation survey participants, it is likely that the precision of the responses would be even greater (and thus the margin of error smaller).

Survey Processing (Data Entry)

Upon receipt, completed hard copy surveys were assigned a unique identification number. Additionally, each survey was reviewed and “cleaned” as necessary. An example of cleaning would be if a question asked a respondent to pick two items out of a list of five, but the respondent checked three; in this case, NRC would use protocols to randomly choose two of the three selected items for inclusion in the dataset.

All surveys then were entered twice into an electronic dataset; any discrepancies were resolved in comparison to the original survey form. Range checks as well as other forms of quality control were also performed.

The online survey data was collected on Polco, an online civic engagement platform. Use of Polco means all collected data are entered into the dataset immediately when the respondents submit the surveys. Skip patterns are programmed into the system so

respondents are automatically directed to the appropriate question (skipping irrelevant questions, when applicable) based on the individual responses given.

A series of quality control checks were also performed in order to ensure the integrity of the web data. Steps may include (and are not limited to) reviewing the data for clusters of repeat IP addresses and time stamps (indicating duplicate responses) and removing empty submissions (questionnaires submitted with no questions answered).

Survey Data Weighting

The primary objective of weighting survey data is to make the survey sample reflective of the larger population of Area Five Agency on Aging and Community Services. The characteristics used for weighting were age, sex, race, Hispanic origin, housing type, rent or own home, and area. No adjustments were made for design effects. Weights were calculated using an iterative, multiplicative raking model known as the ANES Weighting Algorithm. The results of the weighting scheme are presented in the following table.

Weighting Scheme for the 2021 Area Five Agency on Aging and Community Services CASOA

Demographic Group	Unweighted	Weighted	Population Target
Rent or Own Home			
Rent	12.2%	19.8%	16.7%
Own	87.8%	80.2%	83.3%
Housing Type			
Detached	87.7%	60.3%	48.6%
Attached	12.4%	39.8%	51.4%
Race			
White	96.8%	94.0%	95.4%
Not white	3.3%	6.0%	4.6%
Ethnicity			
Hispanic	1.2%	3.0%	1.3%

Not Hispanic	98.8%	97.0%	98.7%
Gender			
Female	62.8%	53.9%	54.6%
Male	37.2%	46.1%	45.4%
Age			
Age 60 to 64	11.7%	26.4%	26.0%
Age 65 to 74	49.1%	43.2%	41.7%
Age 75 and over	39.3%	30.4%	32.3%
Gender and Age			
Female 60 to 64	8.1%	15.2%	13.2%
Female 65 to 74	29.0%	21.4%	22.0%
Female 75 and over	24.9%	19.4%	19.4%
Male 60 to 64	3.7%	11.9%	12.8%
Male 65 to 74	19.9%	20.3%	19.7%
Male 75 and over	14.3%	11.8%	12.9%

Reporting

For the most part, the percentages presented in the reports represent the “percent positive.” The percent positive is the combination of the top two most positive response options (i.e., excellent and good, very safe and somewhat safe, essential and very important, etc.), or, in the case of resident behaviors/participation, the percent positive represents the proportion of respondents indicating yes or participating in an activity at least once a month.

On many of the questions in the survey respondents may answer don’t know. The proportion of respondents giving this reply is shown in the full set of responses included in Responses. However, these responses have been removed from the analyses presented in the main body of the report. In other words, the tables and graphs display the responses from respondents who had an opinion about a specific item.

Multiple Response Questions

For some questions, respondents were permitted to select multiple responses. When the total exceeds 100% in a table for a multiple response question, it is because some respondents are counted in multiple categories.

Rounding

Excluding the Participants tab, percentages shown are rounded to the nearest whole number. This can sometimes mean that the percent of responses across all the possible response categories may sum to something other than exactly 100%. It also means that in some instances, the “percent positive,” “percent problem,” or other summaries of data may not equal the rounded percentages of the two categories. For example, if 30.4% of respondents rated quality of life as excellent, and 20.4% of respondents rated it as good, a display of all the responses will show 30% excellent and 20% good. However, a display of the percent rating quality of life as excellent or good will show 51% (as 30.4% + 20.4% equals 50.8%, which rounds to 51%).

Making Comparisons to Benchmarks

National Research Center at Polco has developed a database that collates responses to CASOA and related surveys administered in other communities, which allows the results from Area Five Agency on Aging and Community Services to be compared against a set of national benchmarks. This benchmarking database includes responses from more than 35,000 older adults (age 55 and over) in over 322 communities across the nation.

Ratings are compared when similar questions are included in Polco’s database, and there are at least five other communities in which the question was asked. Where comparisons for ratings were available, Area Five Agency on Aging and Community Services’s results are shown as being more favorable than the benchmark, less favorable than the benchmark or similar to the benchmark. In instances where ratings are considerably more or less favorable than the benchmark, these ratings have been further demarcated by the attribute of “much,” (for example, much more favorable or much less favorable).

Reporting Statistical Significance

For the crosstabs of survey results by selected respondent characteristic, chi-square or ANOVA (Analysis of Variance) tests of significance were applied to these

breakdowns of selected survey questions. A p-value of 0.05 or less indicates that there is less than a 5% probability that differences observed between groups are due to chance; or in other words, a greater than 95% probability that the differences observed in the selected categories of the sample represent “real” differences among those populations. However, it should be noted that while these tests of statistical significance were used to help guide readers and policy makers to differences that are likely not due to chance alone, these types of probabilistic inferences were designed for use when results come from random sampling alone (for more information, see Hirschauer, N., Gruner, S., Mußhoff, O., Becker, C., & Jantsch, A. (2020). Can p-values be meaningfully interpreted without random sampling? *Statistics Surveys*, 14, 71-91).

Community Readiness Scores

The community readiness scores presented in Community Readiness represents the average of the questions included in the index. Although the evaluative or frequency questions were made on 4- or 5- point scales, with 1 representing the best rating, the scales had different labels (e.g., excellent, very likely). To calculate these average scores, the questions used in the index were converted to a common scale where 0 is the worst possible rating and 100 is the best possible rating. If everyone answered excellent, then the result would be 100 on the 0-100 scale. If the average rating for quality of life was right in the middle of the scale (halfway between good and fair), then the result would be 50. This scale can be thought of like the thermometer that is often used to illustrate total donations received by charitable organizations—the higher the thermometer reading, the closer to the goal. In this case, 100 (the top of the thermometer) would represent the most positive response possible. The table below shows the individual questions comprising each summary score for the six dimensions of community readiness, as well as the overall rating for the Quality of the Community.

Dimension of Community Readiness	Items Included in Community Readiness Score
Overall Community Quality	<ul style="list-style-type: none"> ● Your community as a place to live ● Your neighborhood as a place to live ● Your community as a place to retire ● The overall quality of life in your community ● Recommend living in your community to older adults ● Remain in your community throughout your retirement

Dimension of Community Readiness	Items Included in Community Readiness Score
Community Design	<ul style="list-style-type: none"> ● Overall quality of the transportation system (auto, bicycle, foot, bus) in your community ● Overall design or layout of your community's residential and commercial areas (e.g., homes, buildings, streets, parks, etc.) ● Overall quality of the utility infrastructure in your community (water, sewer, storm water, electric, gas) ● Ease of travel by public transportation in your community ● Ease of travel by car in your community ● Ease of walking in your community ● Ease of getting to the places you usually have to visit ● Availability of affordable quality housing ● Variety of housing options ● Availability of accessible housing (e.g., homes with a no step entry, single-floor living, wide hallways and doorways) ● Availability of mixed-use neighborhoods where people live close to places where they can eat, shop, work, and receive services ● Public places where people want to spend time
Employment and Finances	<ul style="list-style-type: none"> ● Overall economic health of your community ● Opportunities to build work skills ● Quality of employment opportunities for older adults ● Variety of employment opportunities for older adults ● Cost of living in your community

Needs Summary

Each livability topic covered in the survey includes a summary of needs identified by respondents. For almost all of these needs summaries, a respondent was counted as having a need if they had a major problem or moderate problem with any of the items examined in each score area. The one exception is for the independent living topic; for

this needs score, a respondent was counted as having a need if they reported spending any time in a hospital or in a long-term care facility in the last year.

Needs Score	Items Included in the Score
Caregiving	Any of the following were a major or moderate problem: <ul style="list-style-type: none"> ● Feeling PHYSICALLY burdened by providing care for another person ● Feeling EMOTIONALLY burdened by providing care for another person ● Feeling FINANCIALLY burdened by providing care for another person
Civic Engagement	Any of the following were a major or moderate problem: <ul style="list-style-type: none"> ● Feeling like your voice is heard in the community
Community Inclusivity	Any of the following were a major or moderate problem: <ul style="list-style-type: none"> ● Having friends or family you can rely on ● Feeling lonely or isolated ● Feeling like you don't fit in or belong
Employment	Any of the following were a major or moderate problem: <ul style="list-style-type: none"> ● Finding work in retirement ● Building skills for paid or unpaid work
Equity	Any of the following were a major or moderate problem: <ul style="list-style-type: none"> ● Being treated unfairly or discriminated against because of your age
Finances	Any of the following were a major or moderate problem: <ul style="list-style-type: none"> ● Having enough money to meet daily expenses ● Having enough money to pay your property taxes
Health Care	Any of the following were a major or moderate problem: <ul style="list-style-type: none"> ● Finding affordable health insurance ● Getting the health care you need ● Getting the oral health care you need ● Getting the vision care you need ● Affording the medications you need
Housing	Any of the following were a major or moderate problem: <ul style="list-style-type: none"> ● Having housing to suit your needs ● Doing heavy or intense housework ● Maintaining your home

Needs Score	Items Included in the Score
	<ul style="list-style-type: none"> ● Maintaining your yard
Independent Living	<p>Spent one or more days:</p> <ul style="list-style-type: none"> ● In a long-term care facility (including nursing home or in-patient rehabilitation facility) ● As a patient in a hospital
Information and Assistance	<p>Any of the following were a major or moderate problem:</p> <ul style="list-style-type: none"> ● Having adequate information or dealing with public programs such as Social Security, Medicare, and Medicaid ● Not knowing what services are available to older adults in your community
Mental Health	<p>Any of the following were a major or moderate problem:</p> <ul style="list-style-type: none"> ● Experiencing confusion or forgetfulness ● Feeling depressed ● Dealing with the loss of a close family member or friend
Mobility	<p>Any of the following were a major or moderate problem:</p> <ul style="list-style-type: none"> ● Having safe and affordable transportation available ● No longer being able to drive

²A 95% confidence interval indicates that for every 100 random samples of this many residents, 95 of the confidence intervals created will include the "true" population response. This theory is applied in practice to mean that the "true" perspective of the target population lies within the confidence interval created for a single survey. For example, if 75% of residents rate a service as excellent or good, then a 4% margin of error (for the 95% confidence interval) indicates that the range of likely responses for the entire community is between 71% and 79%. This source of uncertainty is called sampling error. In addition to sampling error, other sources of error may affect any survey, including the non-response of residents with opinions different from survey responders. Though standardized on CASOA, on other surveys, differences in question wording, order, translation and data entry (as examples) can lead to somewhat varying results.
